PLANS FOR CANCER WEEK UNDER WAY

HEADED HERE BY DR. H. S. DOWELL

PROCLAMATION BY HYDE

To Observe This Week—Many Prominent Men Are Behind Anti-Cancer Movement

Plans are under way for local work in the National Cancer Control Week, which is being observed over the entire country this week. Dr. H. S. Dowell of Maryville is chairman for this work in Nodaway, Holt, Atchison and Worth Counties and is heading the activities to bring the dangers of this disease before the public. Placards warning that cancer has shifted and is now running on high has been placed in many of the store windows and different literature is being distributed. The following proclamation has been issued by Governor Arthur M. Hyde in regard to Cancer Week:

"I call upon you, the people of Missouri to listen to the message of hope and warning concerning cancer, that is being sent out by physicians all over the country during National Cancer Week, November 12 to 18. The American Society for the Control of Cancer, among whose directors are Chief Justice Taft, Postmaster General Hubert Work, Dr. W. J. Mayo of Rochester, Dr. Powers of Denver, Dr. Billings of Chicago and many other prominent physicians and laymen, has charge of this campaign of education. They tell us that cancer can be permanently cured in its early stages. A large percentage of the 100,000 persons that die annually of cancer in this country had plenty of warning symptoms in the early stage but through ignorance or cowardice failed to go to have it treated.

I trust this week everyone will avail himself of the opportunity of learning the danger signals of cancer: Forewarned is forearmed."

Dr. A. R. McComas, president of the Missouri State Medical Association has issued the following statement:

"If people could be made to understand the prevalence of cancer, that in the very early stages, before there is wide-spread manifestations of the disease, is the time to seek the advice of a good competent physician a great good will have been accomplished."

Archbishop John J. Glennon of St. Louis is in entire sympathy with the work as shown by the statement received by Dr. Dowell.

"I am in thorough sympathy with the American Society and in the work being done by it for the control of cancer. I cordially commend it to the Catholic Societies and recommend them to cooperate with you directly. Everyone of them could very well have, at any of their meetings or at a special meeting, a health program—invite thereto your lecturers; and should be acquainted with everything that the intelligent layman should know concerning diseases such as cancer, now so prevalent and so deadly, with a view to making them less prevalent and consequently less deadly."

Slides are being shown at the local theatres and it may be that a five minute talk will be given at the theatres later in the week on the Control of Cancer.

Leavenworth, Kansas, Nov. 14—One guard is dead and five others are wounded as a result of the running amuck of Joe Martinex, a crazed Mexican prisoner, who is serving ten years in the federal penitentiary for murder.

As officials were passing the place where Martinez was working, he refused to remove his cap. When guards attempted to remove it, the enraged man drew a knife with a three inch blade and began slashing the guards.

As guards are not allowed to carry weapons, it was necessary for one to rush to the officer and secure a pistol before the enraged Mexican could be stopped. He was shot down with the pistol and is not expected to live.

ILLINOIS VOTE FAVORS BEER

OHIO OPPOSED PROPOSED BEER AND LIGHT WINES MEASURE

MASSACHUSETTS "WET"

Many Proposals Were Voted On at The Different State Elections Held Last Tuesday

Chicago, Ill., Nov. 14—A division of opinion as to the advisability of permitting the sale of beer and light wine was recorded in two states of the Middle West at last Tuesday's elections, while all four states in which the soldiers' bonus was up returned favorable majorities, according to figures available today.

Ohio opposed a proposed constitutional amendment legalizing the sale of wine and beer, while Illinois cast a heavy vote in favor of a modification of state and federal laws to permit the manufacture, sale and transportation of beer and light wine.

The question of Sunday amusements was raised in only one state in the Middle West, South Dakoth, which, according to available figures, put the ban on Sabbath festivities by a vote of about 2 to 1.

In Illinois, Iowa and Kansas an overwhelming vote in favor of the bonus was polled. In Oklahoma the soldiers' compensation proposal, however, received so slight a majority that an official count may be necessary to determine the issue.

Questions of taxation, submitted in various ways throughout the Central States, also showed differences of opinion without any precinct adrift in public sentiment toward greater economies of government.

Michigan opposed a state income tax and Ohio defeated a maximum 1 mill tax levy, while Minnesota favored a tax on persons or corporations engaged in mining or producing ores.

Other financial questions which returns indicated were answered in the affirmative by the voters were the loaning of the credit of the State of Minnesota in aid of the development of the agricultural resources of the state and an act to require any proposed bank in Nebraska to show it is necessary before it can be opened. In South Dakota the voters refused to authorize the state to engage in the banking business and also to extend to the state, county or district authorities the power now vested only in municipal authorities to levy special assessments against abutting or contiguous property for local improvements.

Wisconsin Rejects Improvements

Wisconsin rejected a proposed constitutional amendment authorizing any city, in addition to its authorized indebtedness, to incur an additional indebtedness for public improvements. Another proposal which provided that a valid jury verdict in civil cases may be based on the votes of a specified number of the jury, not less than five-sixths thereof, met with approval.

Nebraska, according to unofficial returns, indorsed an antipicketing law, while refusing to amend the primary law to provide that delegates to political conventions be selected by causes and conventions instead of primary elections.

In North Dakota the question of providing for the appointment of a body of men, under the State Railroad Commission, to grade grain at the direction of the state, this grading to have authority in all purchases of grain within the state, was approved by a vote of three to one.

The defeat of the proposed wine and beer amendment in Ohio was by a much smaller majority than the

Allied Military Forces to Hand Over This Capital City Sunday—Turks Celebrate

London, Nov. 14—The Allied military forces have turned over Western Thrace and the important seaport of Rhodesa to the Turkish Nationalists and will turn over Adrianople, important capital city, 135 miles from Constantinople, to the Turks Sunday, says a dispatch reaching here today.

The acquisition of this territory is regarded as a big diplomatic victory over the allies before the near East conference at Lausanne begins.

The Near East situation is still serious and refugees continue to flock in from Western Thrace. It is believed in some quarters that the Kemalists will not make any further attempts to override the authority of the allies.

The Turkish Nationalists in Constantinople continue to celebrate their victory over the allies. There is some indications that a preliminary peace parley may be held in London soon.

CONTRACTS ON BIG ROAD PROGRAM ON DECEMBER 2

More Than 287 Miles of Roads—7.4 Miles In Atchison; None in Nodaway

Jefferson City, Nov. 14—The state highway commission announced Monday that bids will be opened here December 2 on contracts for the construction of the first lap of the St. Louis cross-state highway east of Kansas City.

December 2, bids will be opened for the largest amount of new road construction under the 60-million-dollar program ever attempted at one time in Missouri. The bids are for 287.72 miles of roads to cost $4,800,000. The letting of contracts is proceeding so rapidly that the highway commission probably will find it necessary to ask the sale this year of the second installment of 5 million dollars of road bonds.

The contract letting next month, the second under the new state road program, will be on eighty-one projects in forty-six counties. Seventy-one miles will be on the primary roads and 216 miles on the secondary system. Theodore Gary, chairman of the highway commission, said today that contracts will be let in every county of the state by March 1, 1923.

Among the counties and the projects for which bids have been asked are:

Atchison County, five miles of heavy grading, culverts one 300-foot steel bridge, ton road from Fairfax northwardly toward Tarkio.

Also, approximately 2.4 miles heavy grading, culverts, one concrete bridge, on road from Tarkio, southward toward Fairfax.

H. W. Kramer went to St. Joseph yesterday where he will spend several days on business.

ARMISTICE DAY THOUGHTS

The first anniversary of the great peace of November 11, 1918 produced jubilation in every American heart. But when the second and third recurrences of the date came, many people were moved with regrets because the recovery from the war was so slow. They had expected to see the world enjoy a new development of ideals. They were disappointed to see not merely the same old sordid habits and purposes, but many new troubles created by war conditions.

By this time the meaning of the years that have passed can be seen with clearer vision. The accomplishment of our soldiers looks as big as it ever did, and will never appear less. A matchless display of personal courage, manly spirit, and alert faculties, was made on the fields of France, and the country will always be proud of it.

There is no reason to regret our participation in the war. The crowd that ruled the Teutonic powers had to be thrown down on the world would never have been at peace.

Some idealistic hopes have been disappointed. Human nature is just as selfish as it ever was, as any one might have forseen. But the forces of autocracy have been put down, and will not again try to sway the world. Also a splendid demonstration was given of the power of organization to accomplish community ends.

The people will not soon forget how money was raised in incredible sums, and how vast forces of social betterment were set to work. A good deal of that spirit is left from the war experience and is working today. It is leading people to unite as never before to promote higher standards of living. After the economic disorganization produced by the war upheaval has ceased to have its effect, the community will have a permonent increment of better social forces as the reward for its sacrifices.

The platform makers of both political parties should now have a lot of old lumber to dispose of.

From the results of the recent election it would seem that the women are riding in the same political car with the men but mighty few of them are finding seats.

The people of this country make a great complaint over their taxes but suppose they were in England. Over there the debt of the country is said to be an overage of $900 for each person. Imagine a family with ten or twelve children.

There have been numerous political changes in the recent election and there have been a number of presidential booms punctured without launching any new ones that seem likely to mature. Governor Miller of New York and former Senator Beveridge of Indiana are two fairly good republican prospects whose balloons have been bursted by the election. Senator Pomerene of Ohio would have been a commanding Democratic figure had he been re-elected. The friends of Senator Reed of Missouri had planned a considerable boom for him but the vote of St. Louis and Kansas City have set his case back very materially. President Harding has been given a severe blow in the reversal of public opinion but it has developed no promising successors to the leadership of the Republican party.

Last Tuesday's election ought to make it clear to President Harding that he will not be available for a second term unless the temper of the people is materially changed. If he will accept this view of the situation, there is yet time for him to stiffen up and make a good president. President Harding has hard problems to solve and he is believed to be a man who wants to do the right thing but his views have evidently been warped by close advisers and he has lacked decision and firmness. A quicker determination and a firmer policy would very likely have forestalled a lot of the complication in which the country is involved today. Most of these problems are not political problems and should not be considered from a political standpoint. If the President can be divorced from all thought of re-election, he will make a better president and no doubt be stronger in the hearts of the people as a result.

Etiquette Of Flag That Everyone Should Observe

1. Do not hoist the flag before sunrise nor allow it to remain hoisted after sunset.

2. When the flag drapes a wall and is hung horizontally, the blue field should be to the left; when hung vertically the blue field should be to the right.

3. Never allow the flag to touch the ground or floor when being hoisted or lowered. It should at all times float freely and if caught be released at once.

4. During the ceremony of hoisting or lowering the flag, or when passing in parade of review, it is customary for all to remain standing in silence. Men's headdress should be removed and held in the right hand level with the left shoulder. If in uniform, they should salute with the right-hand salute.

5. In placing the flag at half-mast, always hoist to the top of the staff and then lower to position (the top of flag one-third down from top of pole). In lowering from half mast the flag should also first be raised to top of staff. On Memorial day the flag should be at half mast until noon and at full mast the remainder of the day.

6. When the American flag is carried, with others, in parade, it must have the place of honor at the right. If a number of other flags are carried, our flag must either precede the other or be carried in the center and above the others, on a higher staff.

7. In raising other flags with ours, the American flag must be above the others—never below.

8. The flag must never be draped, but always arranged to hand in straight lines. It must not be used as a cover for a dress, table or box. Nothing must ever be placed on the flag. When clusters or drapings of colors are desired, bunting or cloth may be used, never the flag.

9. The flag must not be used in whole or in part as a costume, and when worn as a badge it should be small and pinned over the left breast or to the left collar lapel. It must never be used for advertising purposes—not even a picture of it.

10. It is unlawful to trample upon, mutilate, or otherwise treat the flag with insult or contempt, or attach to it any emblem or inscription whatever. When old or soiled it should be decently burned. Do not drive tacks in the flag.

11. When the flag is hung as a streamer to be viewed from both sides, as when stretched across a street, the field of blue should always be toward the east or the north.

Heard On Main Street

"Well how is the kid?"
"Oh! Nothin to complain of."
"How is every old thing?"
"Oh! comin' along all O. K."
"Att'a Boy—well so long Bo."
"See you again soon."

And that was the conversation when two grown men met each other on the street. Talk about small talk!

Uncle Abner, the town philosopher, says it is difficult to find your confidence after you have misplaced it.

One of our professional friends who is very modest in his dress bought a pair of those cute wool socks which they wear with oxfords in the winter and they had white clocks on the sides. He spent several hours taking them out.

ILLINOIS VOTE FAVORS BEER

Continued from page one

victory of the referendum in Illinois. This was explained by prohibition advocates as due to the fact that they had advised their adherents not to vote on the question.

The pro-hibition vote in Ohio was 899,404 against a negative vote of 712,208.

In Illinois returns from 5121 of the 5890 precincts in the state showed 929,521 in favor of prohibition modification and 453,248 against any loosening of the present restrictions.

Returns from 5181 Illinois precincts on the soldier bonus gave: For, 1,180,514; against, 444,792. In Iowa, 1965 out of 2348 precincts gave 292,808 in favor of a bonus and 152,234 against.

In Kansas, 1205 precincts out of 2536 showed 165,887 had voted yes and 65,548 had voted no. Oklahoma, with returns available from 2387 out of 2937 precincts, gave an affirmative vote of 208,651 against a negative vote of 194,756.

The Illinois bonus proposal provided for $55,000,000 bond issue and direct tax to pay the bonus. The Iowa proposition was for the issuance of $22,000,000 bonds for teh same purpose.

Massachusetts Votes "Wet"

New York, November 14—Defeat of the state prohibition enforcement act and of another measure providing for state regulation of motion pictures by the votes of Massachusetts were two of the most important referendum questions decided in the Northeastern States at Tuesday's elections.

Pennsylvania adopted, by a large majority, an amendment to the state constitution, giving municipalities the right to amend their own charters, the measures being popularly known as the "home rule amendment."

Voters of Maryland acted favorably on several amendments. Those provided for increased Legislature representation for the City of Baltimore, extension of the term of office of the State Comptroller and Treasurer from two to four years; quadrennial elections for all state and county officers, except judges, by making the terms of all such four years and making women eligible to hold office by construing all words and phrases denoting masculine gender to include feminine gender.

With sixty-three of New Jersey's 2464 election districts still unheard from, the voters of that state apparently passed favorably on a proposal to issue $40,000,000 worth of bonds for highway improvement.

WORLD BILLIARD CHAMPIONSHIP MATCH IS ON

Jake Schaefer, Willie Hoppe, Cochran, Horemans and Others Playing For the Title

New York, Nov. 14—Six of the finest billiardists that ever lived are ready to begin play at the Hotel Pennsylvania yesterday for the world's championship at 18:2 balkline billiards.

They are Jake Schaefer, the greatest champion the game has known; Willie Hoppe, champion for sixteen years and, in point of skill, hardly a pace, if that, behind Schaefer; Welker Cochran, No. 3 in the American ranking; Edouard Horemans, champion of Europe; Roger Conti, of France, and Eric Hagenlacher of Germany.

Last year's tourney in Chicago was productive of more sensationalism than any similar event since Hoppe won the title while still in his 'teens. It saw Schaefer break the Hoppe monopoly for the first time, and then only after a 1,500-point play-off, in which Hoppe miscued when within thirty-five points of retaining the championship.

In victory, Schaefer proved himself the greatest champion of all time; yet were it not for the fact that he disposed of Hoppe twice during the tourney that honor might very well be placed in doubt.

However, both of the men in question, to say nothing of Cochran and Horemans, are 20 per cent beyond the ability of the old-time stars. Twenty years ago Schaefer the elder was called the Wizard because he had beaten such men as Cure and Frank Ives, but he would be forced to improve his game considerably to stand a chance now.

The big thrill of the present event hinges on the possibility of Hoppe's comeback. In practice at the Hoppe-Peterson Club he has averaged between fifty and sixty and seems to be in ideal physical and mental condition.

ST. JOSEPH POLICE HEAD REFUSES A "PROMOTION."

St. Joseph, Nov. 14. — Walter P. Fulkerson, police commissioner this afternoon flatly refused to accept the position of state finance officer should it be tendered him by Governor Hyde. Fulkerson gave no reason for his refusal.

Press dispatches this morning said that Governor Hyde would tender him the position. Fulkerson is one of the commissioners whose removal was demanded by 12,000 citizens of St. Joseph, following the shooting of Nellie Hale, 14 year old school girl.

HUFFS FOUND "NOT GUILTY."

Well-to-do Missouri Farmers Given Freedom After Tedious Trial.

Shenandoah Sentinel-Post.

Walter and George Huff, well-to-do Missouri farmers from Elmo, who were accused of participating in the robbery of the Kramer hermits near Shambaugh a year ago in August, were found not guilty Thursday night in the district court at Harlan. The jury deliberated three hours and are said to have taken but one ballot.

Mr. and Mrs. George Huff were in Shenandoah Friday afternoon on their way home. They stopped to see Elbert and Henry Read who went the bonds of the brothers, after hearing the Huffs' stories.

The two Huffs, who happened to be related to a convicted member of the party which robbed the Kramers, were the victims of a long standing grudge, it is said. They had no trouble proving their whereabouts on that particular afternoon, a Methodist minister being one of the witnesses, as he was a visitor at the Huff home at the time.

The brutal attack on the Kramers occurred August 29, 1921. Ed Kramer, the 97-year-old victim and his nephew, 53, who was also attacked, told their story on the witness stand. The automobile tracks from the place were traced to the home of Elmer Hamilton, who is now in the penitentiary for participation in the robbery.

According to the Kramers, the members of the robber gang entered their house about 5 o'clock on the evening of August 29, 1921, declaring they were deputy sheriffs looking for booze. Then they said they were looking for counterfeit money. They tied the two men to chairs, beat them, spat in their faces, twisted their limbs and in numerous ways tortured them.

The men ransacked the house, tore down pictures, overturned furniture, punched holes in the wall and did other acts of destruction.

The Kramers insisted they had no money, and in an attempt to make the younger man admit they had, and reveal its hiding place, the robbers held the younger Kramer over an open well in the kitchen, threatening to throw him into it if he did not tell his secret. One of the men yelled that he had found a "half bushel of gold" and taking this the men left.

MARKET NEWS LETTER.

Kansas City Stock Yards, Nov. 14—Cattle receipts showed a decrease compared with a week ago, making the third consecutive Monday that the movement has developed diminishing proportions. There were some higher spots in the trade, but in most cases prices ruled steady. Liberal receipts and lower prices at more eastern markets caused no quotable change in hog quotations here. The movement in all sections of the country is on the increase. Sheep and lambs were stronger with quality plain.

Today's Receipts.

Receipts today were 23,000 cattle, 12,000 hogs, and 6,000 sheep, compared with 28,000 cattle, 10,000 hogs, and 5,000 sheep a week ago, and 16,450 cattle, 9,700 hogs, and 5,500 sheep a year ago.

Beef Cattle.

Cows and heifers which have been selling relatively low for some time past were quoted up 15 to 25 cents today. Killers showed more anxiety to get supplies than for some time past. Canners showed the advance as well as fat steers. There were a few strong spots in the steer trade, but in most cases prices were steady. Comparatively few grass fat steers were offered and the run was largely short fed steers that sold at $7.75 to $9.25. No finished steers arrived, and from now on they will be scarce. Christmas beeves should be marketed not later than the first week in December. Calves were steady, with receipts considerably lighter than for some time past.

Stockers and Feeders.

Demand for stockers and feeders continued to show good proportions and prices were well maintained. Some choice stockers sold at $7 to $7.50, and selected fleshy feeders up to $7.75. Stock calves sold mostly at $5.50 to $7.

Hogs.

Some bids at the outset were 5 to 10 cents lower, but drew no sales, and later trade in the hog division became active at close to steady prices. The top price was $8.25 and the bulk of the offerings brought $8 to $8.20. At more eastern markets prices were 10 cents lower, and not high enough to afford a shipping margin. The packers are trying to get the market under the 8 cent level, but so far have had strong competition on shipping accounts. Pigs sold at $7.75 to $8.50.

Sheep and Lambs.

Most of the offerings in the sheep division had wet fleeces today, but demand was active and prices ruled stronger. Fair quality western lambs wet and heavy sold at $13.75 to $14, yearlings $11.50 to $12, wethers $8 to $8.25, and ewes $7 to $7.25. Feeding lambs are quoted at $12.50 to $13.25.

Horses and Mules.

Horse receipts were light and mule receipts liberal. Opening trade developed no quotable change in prices and indications are for a fairly good demand.

FUNERAL SERVICES FOR MRS. L. D. COOK HELD

Were Largely Attended—Sermon by Dr. Chilton of St. Joseph and Rev. R. E. Snodgrass

Funeral services for Mrs. L. D. Cook, who died Saturday, were held yesterday afternoon at the Christian Church of this city and were conducted by the Dr. C. M. Chilton of St. Joseph and the Rev. R. E. Snodgrass, pastor of the Christian Church. Both Dr. Chilton and Mr. Snodgrass gave short funeral addresses and referred to the late Elder L. D. Cook, who was a pioneer minister of the Christian Church of this county. Dr. Chilton preached the funeral sermon for L. D. Cook at the time of his death twenty-eight years and four months ago to a day. Both Mrs. Cook and her husband died on the same day of the week and were buried on the same day of the week.

A quartette composed of Mrs. R. E. Snodgrass, Mrs. F. P. Robinson, Price Doyle and W. E. Goforth gave "The Rock of Ages," "Have Thine Own Way," and "The Home Over There." Mrs. Robinson sang "The Beautiful Isle of Somewhere."

The pall bearers were: Judge John M. Dawson, Judge Jesse F. Robertson, W. A. Blagg, C. A. Hawkins, G. B. Roseberry and Newt Hagins. Burial will take place in Cain cemetery as soon as the roads are in good condition so as to travel. Burial will be by the side of Mr. Cook, over whose grave a monument was erected by the churches of Northwest Missouri. The death of Mrs. Cook was the only death in the Cook family since the death of her husband over twenty-eight years ago.

The funeral services yesterday were largely attended.

SEC. PICKENS GETS STUCK IN MUD IN OWN GARAGE

But Auto Club Comes To His Rescue And He Isn't Late For Work

To get stuck in the mud in your own garage sounds unbelievable, but nevertheless this is what happened to Secretary George A. Pickens of the Chamber of Comerce this morning. Thanks to the Auto Club, they came down and pulled him out and he wasn't very late to work either.

Pickens has a new garage and dirt is very soft on the floor and with the rain of the last two days it became "ultra-soft." When he started his car this morning it mired in the soft dirt and worked so far over to one side that he had to have help to get out of "his own private mudhole" in his own garage.
